http://www.devicelink.com/expo/wpack10/expohall.html

At WestPack 2010 you can:

FIND new equipment, technology, and materials to lower costs, reduce waste, and increase efficiencies. You'll see that the latest in: bags, containers, contract services, custom automation equipment, machinery and machinery components, materials, packages, package design and printing, robotics, supplies, software...and more.

COMPARE suppliers to obtain better options and improved services. These suppliers are ready to help save you money right now, and offer years of experience in: food, beverage, cosmetics/ personal care, industrial, pharmaceutical/ nutraceutical, printing/publishing, chemical, appliances, medical devices, electronics, instruments, consumer products, automotive, toys, and textiles.

IDENTIFY new, more cost-effective process methods to help improve product and business performance margins.

VISIT five special show features: contract packaging and outsourcing services, cosmetic and personal care packaging, green packaging, material handling & logistics, and pharmaceutical & nutraceutical packaging.

EVALUATE additional products at these co-located events: ATX West, Electronics West, Green Manufacturing Expo, MD&M West, Pacific Design & Manufacturing, and PLASTEC West—all under one roof!

Thank you for your participation!

SAVE THE DATE!!!
