GET THE PROFESSIONAL EXPERIENCE ON A LEED PROJECT EXPERIENCE THAT YOU NEED TO BECOME A LEED AP!

This online program takes place over 4 weeks, every Tuesday evening from 6:00pm—7:30pm PST via web conferencing.

USGBC Central CA Chapter is partnering with [GreenStep](#) and [Green-Buildings.com](#) on the LEED® Professional Project Experience Program, which provides LEED AP exam candidates with an opportunity to actively work on a LEED registered project, thus qualifying participants to take the LEED AP exam while gaining real-world, hands-on experience.

OBJECTIVES - Participants will: perform LEED credit calculations, evaluate credit costs, troubleshoot potential setbacks, review documentation for compliance, review Credit Interpretation Requests, and complete LEED Templates.

AUDIENCE - This course is intended for LEED AP candidates and Green Associates seeking to earn the LEED AP credential as well as Building Professionals who have some level of familiarity with the LEED Rating System who are looking to gain a thorough understanding of how to manage the LEED documentation process.

This program is limited in size. Once seats are filled, candidates wishing to participate may contact Green-Buildings.com to be added to the list for future projects.
